QUALITY POLICY STATEMENT

Pro-Lock Safety Limited supply a range of unique and patented Pro-Lock coloured valve lock out devices with associated cabling and wires together with a variety of auxiliary products compatible with the flagship product in several readily identifiable colours. A variety of other security and tamper evident devices are also available as is a full range of brass padlocks together with essential Lock--OUI-Tag-out systems for both mechanical and electrical arrangements. Supply is to the Oil, Gas, Petrochemical and Pharma industries worldwide. With security seats also being supplied to mail and banking sectors.
To ensure that we achieve excellence in all our activities we have implemented a formal management system, which satisfies the requirements for Quality of /SO 9001 :2015
We also strive to achieve best practice in Environmental and Health and Safety performance in line with the requirements of ISO14001 and ISO45001
The company has identified the quality, environmental, safety and industry specific legislation and regulations relevant to the business and ensures that all its activities are carried out in conformance with those obligations.

The management and all who work at Pro-Lock Safety Limited are committed to:

- Providing the highest possible level of service in satisfying the requirements of our customers
- Care of the environment and the prevention of pollution
- Ensuring the health and safety of all employees, subcontractors, customers and members of the public
- Continual improvement.
- The objectives underpinning the management system are:
  Our customers' needs shall be fully understood, including quality requirements.
- Adequate facilities and skills are provided to fulfil customers' needs, protect the environment and provide a safe workplace.
- We aim to minimise waste arisings, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, encourage suppliers to adopt sound environmental policies.
- All employees are required to work in a safe manner so that they do not endanger themselves or any other person, and do not damage equipment or take unnecessary risks.
- We provide appropriate training for our staff and others working on our behalf.
- Arrangements are also made for employees and management to consult on health and safety issues.
- This policy and management system are reviewed and updated regularly to take account of changing circumstances, customer requirements and improvement opportunities.

This Policy and the requirements of the Quality, Environmental and Safety Management System have been communicated to all employees and persons working on behalf of the company.

The Policy is also made available to members of the public, by request and will be published on the company website.
